Choosing the Right Lift Product

Overview of Lift Tables

Choosing the right product for your specific application can be a daunting task.

Our team has put together this quick reference guide to help you choose the right product for you. All of our lift tables increase productivity while reducing injuries by avoiding unnecessary bending to pick up and/or move heavy objects.

Hydraulic Lift Tables

- High-quality, simple and reliable.
- For the most heavy-duty applications, capable of lifting up to 30,000 lbs.
- Available in many sizes and configurations, with endless customization options
- Capable of reaching up to 4 stages of lifting, providing the highest lift/travel distance possible
- Economical “pump action” option available in our most affordable unit

Pure Electric™ Mechanical Lift Tables

- Safe for sterile environments that require 0 pollutants (available in stainless steel)
- Easily integrates with other systems such as AGVs or conveyors
- Quietest and fastest lift time/operation
- Available in many sizes and configurations, with endless customization options

Mobile Lift Tables

- Portable and moveable lift table that can lift and transport loads within a facility
- Capable of maneuvering through tight spaces, such as tunnels and narrow aisles
- Economical “pump action” option available in our most affordable unit
- Capable of reaching up to 3 stages of lifting for moderate lift/travel distance
- Available in many sizes and configurations, with endless customization options

Comparison Chart

Benefit	Hydraulic Lift Table	Pure Electric™ Lift Table	Mobile Lift Table
Ultra-Low minimum height *	X		
Capacity over 3,000 lbs	X		
Safe for use in sterile sanitary environments		X	
Transport loads through your facility			X
Manoeuvre in tight or narrow spaces			X
Moveable			X
Easily integrates with AGVs		X	
Quiet operation		X	
Economical “Pump Action” option	X		X
Electrically powered	X	X	X
4 stages of lifting	X		
3 stages of lifting	X		X
2 stages of lifting	X	X	X
Easily integrates with conveyor systems	X	X	
Customizable with Add-ons and accessories	X	X	X

All of our products are EN1570:1999, CE, CSA, ANSI/ASME certified and include an aluminum safety bar to prevent the descent of the platform, a heavy-duty cylinder with explosion-proof valve that slowly descends in the event of a rupture, an intelligent design with rounded corners to reduce the risk of injuries, and hinged maintenance bars for safety.

Custom Solutions

We understand that there are times where off-the-shelf equipment won't meet your needs.

Our Custom Solutions are a great option in these cases. Our engineers will work with you to design and deliver a product to meet your unique needs.

To learn more about our lift products or discuss a custom solution, please call 905-205-0966 or email us at clientsolutions@mayi.industries.
